- 17.2 Anyone wishing to take photographs must be 'vouched for' by a club representative, or produce photographic identity at the beginning of the tournament and will be required to wear a form of accreditation on the day.
- 17.3 Any club with players who do not want to be photographed/videoed must inform the Tournament Organiser prior to the event
- 17.4 Flash Photography and live streaming is not permitted.

18 PLAYERS & BLEEDING

Please note IFNA Regulations clearly states the procedure regarding players and bleeding. However, as no time is allowed for injuries the following should apply:

- 18.1 If the bleeding is not profuse, the player should be asked to cover the injury at the next interval.
- 18.2 If the bleeding is very heavy, the player will be asked to leave the court for the dressing of the injury and to return according to INF rules of the game in force at the time.
- 18.3 In these shorter matches, it is not the intention to penalise a team with an injured player and Umpires will need to be very aware of the time of the next interval, in order to keep a player on court unless it is absolutely necessary to have the injury covered. A sticking plaster could be used in order to stem the flow until the next interval.
- 18.4 Please note: it is the responsibility of the team officials to have first aid dressings available at the side of the court.
- 18.5 If dressings are not available, then a substitute would have to be used or the team would have to play on with only six players.

19 UMPIRES & BLEEDING

- 19.1 Play may be stopped for injury or illness or any other cause. This would allow the Umpires to stop the game if she/he sustained and injury herself/himself.
- 19.2 As no time is allowed for stoppages, the Umpire should try to wait until the next interval before dealing with her/his injury. If the injury is bleeding, the Umpire should avoid touching the ball. This may mean that she/he should request the other Umpire to take any Toss Up that she/he may award, until she/he can deal with her/his own injury. It may now be advisable for Umpires to keep an Elastoplast about their person in order to deal with any small injury that may occur. In the event of a major injury to either a player or an Umpire, the game would have to be stopped and the Tournament Referees would have to make a decision as to how the emergency situation would be coped with.
